In accordance with regulations and the delegated authority provided in Title 36, Code of Federal Regulations ("36 CFR"), Chapter 1, Parts 1-7, authorized by Title 16 United States Code, Section 3, the following provisions apply to all lands and waters administered by the National Park Service, within the boundaries of Springfield Armory National Historic Site. Unless otherwise stated, these regulatory provisions apply in addition to the requirements contained in 36 CFR, Chapter 1, Parts 1-7.

Written determinations, which explain the reasoning behind the Superintendent's use of discretionary authority, as required by Section 1.5(c), appear in this document identified by italicized print.

36 CFR §1.5 – VISITING HOURS, PUBLIC USE LIMITS, CLOSURES, AND AREA DESIGNATIONS FOR SPECIFIC USES OR ACTIVITIES

(a)(1) The following visiting hours, public use limits, and closures are established:

Visiting Hours:

- The visitor center and museum on the first floor of the Main Arsenal building are open to the public from 9:00am to 5:00pm, daily, including all holidays except: Thanksgiving Day, Christmas Day, and New Year's Day.
- The grounds are open to the public between 7:00am and 10:00pm. Pedestrian Gates close at 5pm.

These visiting hours were determined to be in the best interests of the park and are necessary for the proper management of the park.

Public Use Limits

- The general public is prohibited from possessing and/or consuming food or beverages inside the visitor center and museum.

The visitor center and museum contain historic museum artifacts, and are contained within a historic building. Food and beverage consumption is restricted in this area to help protect the resources of the park.

Closures:

These closures are established to protect the lives of visitors and employees, preserve the park's resources, and fulfill the park's mission. They are the minimum restrictions necessary to achieve such protection.

- The park Superintendent may, due to severe weather or safety concerns, close park facilities.

Visitor and staff safety are paramount. In the event of any unsafe conditions that may jeopardize the safety of people, park facilities may be closed if it is determined that specific course of action will mitigate the unsafe condition(s).

- The following roadways are closed to general vehicle traffic (see appendix for map):
 - The driveway east of the Commanding Officers Quarters
 - The circular drive south of the Commanding Officers Quarters
 - The loop road running behind and around the Main Arsenal
 - The road leading to the gate at Byers and State Streets

The primary vehicle route through the park is the road running in front of the Main Arsenal Building. The remaining paved roads are not through ways, and are primarily used by pedestrians.

- Bicycles are not permitted on the lawns, gardens, meadows, pedestrian walkways and trails of the park

Maintenance of the manicured cultural landscape of the park is crucial for interpreting the historic scene and fulfilling the park mission. Bicycling in these areas is incompatible with preservation maintenance and poses a safety threat to visitors/pedestrians.

- The park is closed to recreational, sporting, or other activities during all seasons that potentially detract from the historic setting of the park, resulting in conflict among visitor use activities, or threaten natural or cultural resources.

Activities that restrict the park's mission to preserve and interpret the resources and history of Springfield Armory is prohibited.

- The park is closed to public camping

In order to preserve the historic landscape and ensure the security of the site and its resources, the park is closed to camping by the general public

- Unmanned Aircraft

Definition:

The term "unmanned aircraft" means a device that is used or intended to be used for flight in the air without the possibility of direct human intervention from within or on the device, and the associated operational elements and components that are required for the pilot or system operator in command to operate or control the device (such as cameras, sensors, communication links). This term includes all types of devices that meet this definition (e.g., model airplanes, quadcopters, drones) that are used for any purpose, including for recreation or commerce.

Closure Language:

Launching, landing, or operating an unmanned aircraft from or on lands and waters administered by the National Park Service within the boundaries of Springfield Armory National Historic Site is prohibited except as approved in writing by the superintendent.

(a)(2) The following areas are designated for a specific use or activity and/or the following conditions or restrictions are imposed on a specific use or activity:

First Amendment

- The designated areas for demonstrations are an area to the northeast of the Main Arsenal Building, and an area on the grass to the south of the circular driveway of Quarters 1 and to the northwest of the road behind the Main Arsenal building. See Appendix for a map.

These areas were determined in order to maintain visitor and staff safety

Parking

- Parking is restricted to times and days as posted with signs or painted words within the paved areas on the north side of the street opposite the Main Armory Building. Parking is restricted to park visitors or those conducting business with or on behalf of the National Park Service. Parking is not permitted in any other areas, unless specific permission is given, or under the terms of a permit. See Appendix C.

Parking areas and vehicle access are designated to achieve safety for visitors and staff and to protect the cultural and natural resources of the park

Passenger Carrying Buses:

- Engines must be shut down when not underway

The idling of bus engines adds unnecessary exhaust fumes to the air and diminishes the enjoyment by visitors of the peace and tranquility of the park.

36 CFR §1.6 – ACTIVITIES THAT REQUIRE A PERMIT

Activities requiring a permit are listed above under **Public Use Limits** and throughout this document under the specific 36 CFR Section that authorizes or requires the issuance of a permit.

- Cutting or picking of tree blooms, fruit or flowers is prohibited

The above described gathering and consumption of fallen fruit or nuts will not adversely affect park wildlife, the reproductive potential of a plant species, or otherwise adversely affect park resources. This designation is based on Executive Order 13058, published in the August 13, 1997 Federal Register for the protection of visitors and park staff. It is also designed to protect park resources and reduce the risk of fire.

36 CFR §2.35 – ALCOHOLIC BEVERAGES AND CONTROLLED SUBSTANCES
